Experience

iOS Developer

Five Pack • Tulsa, OK
Jun 2021 - Present

- Develop and contribute to two enterprise-level applications, PetCo and TaxAct, ensuring robust functionality and adherence to project requirements.
- Mentor and coach junior developers, fostering their technical skills and professional growth to enhance team productivity and collaboration.
- Facilitate and actively participate in app ideation and trajectory meetings with new clients, effectively translating their ideas into actionable development plans.
- Contribute to the development and implementation of a credit monitoring and data privacy app, prioritizing data security and user experience to deliver a reliable and user-friendly application.
- Develop feature rich mobile applications using Swift programming and iOS frameworks SwiftUI and UIKit.
- Improve client satisfaction by performing continual maintenance and bug fixes on already existing iOS applications.
- Work extensively with internal teams and clients to perform tasks such as: client demos, estimations, and feature grooming.

Teacher's Assistant

Oral Roberts University • Tulsa, OK
Oct 2018 - May 2021

- Supported computing professors by reviewing and evaluating student-submitted Java, C, and Python programs.
- Communicated basic programming concepts to students by providing detailed feedback on assignments and programs.
- Tutored students in programming concepts to help raise overall assignment and test scores.

iOS Developer

FIVE PACK
